

HI 980AXT

The HL980A Wheel Loader is part of Hyundai's brand new A-Series: a fresh generation of construction equipment that complies with European stage V emission levels. But it goes much further than that! While fulfilling regulatory demands, Hyundai aimed for a ground-breaking level of customer satisfaction with maximum performance and productivity, better safety, more convenience and improved uptime management.

Featuring impressive power matched with carefully selected technologies that help you to work more efficiently and economically, this 31-tonne loader opens up a world of new possibilities. It's time to experience the Hyundai Effect!

ENTER A WORLD WHERE ANYTHING IS POSSIBLE

Productivity

- · Load sensing hydraulic system
- · Accurate weighing system
- Eco Report
- Smart Power mode
- · Hydraulic differential lock
- · 5-speed transmission with lock-up clutch
- · Intelligent clutch cut-off (ICCO)
- · Automatic engine shutdown
- · Optimised power matching

Durability/Safety

- · Emergency stop switch
- · AAVM camera system (option)
- Radar rear detection (option)
- · IMOD (Intelligent Moving Object Detection) (option)
- · Enhanced axle capacity
- Axle cooling (option)
- · Thermostat-based transmission cooling
- · Optimised drive shaft
- · Completely sealed engine room
- · High grade hoses
- · Foldable side mirror
- Seat belt warning alarm

Comfort

- · Spacious soundproofed cabin
- · Fully adjustable seat and armrest
- · Air compressor (option)
- · Wide touchscreen monitor
- Ride control system
- · Fully adjustable seat and armrest
- · Remote door control (option)
- Soft end stop

Serviceability

- ECD (Engine Connected Diagnostics)
- Fully openable engine hood
- · Hi-MATE telematic system
- · Easy filter replacement
- · Auto greasing system (option)
- · Wide core & fin radiator

PROTECT YOUR **CO-WORKERS AND EQUIPMENT**

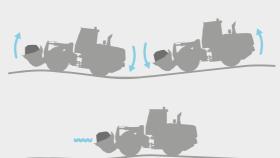

Details can make a huge difference when it comes to safety, especially if you're working in rough conditions. It's not just a matter of complying with rules. The HL980A's safety features are designed and tested to meet your needs in the real world, even offering an extra pair of eyes with the optional Advanced Around View Monitoring (AAVM) and radar systems. Operating confidence is maximised with technologies that provide a feeling of stability and smooth performance in high-load work. By helping to ensure a calm, accident-free worksite, this wheel loader adds to the productivity and peace of mind that are all part of the Hyundai Effect.

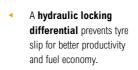

"It looks tough but its performance is surprisingly smooth and predictable. In this machine, I feel safe in any conditions."

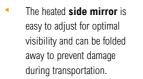

A ride control system with a

piston accumulator reduces pitching of the wheel loader body and bucket for smooth, stable and comfortable operation. It also minimises spillage, improving productivity.

The optional Advanced Around View Monitoring (AAVM) system gives you a 360° overview of your immediate working environment. It also includes Intelligent Moving Object Detection (IMOD) technology that senses and warns you when people or objects come within five metres of the machine.

The optional **radar system** detects obstacles behind the machine, day and night, with no blind spots. The distance between the obstacle and the loader is displayed on the secondary monitor.

The engine can be shut down immediately using an emergency stop switch located at the base of the seat.

The HL980A has a large, air suspended, comfortable seat with heating as standard. The seat and armrest are fully adjustable.

An optional air compressor can be mounted in the cabin to help operators keep their workspace pleasant and comfortable.

The remote door control option further improves convenience and safety.

A CABIN DESIGNED **AROUND YOU**

The HL980A cabin was designed to be a perfect fit for every operator and provides a productive, stress-free working environment. Pleasant and spacious, it features state-of-the-art noise and vibration reduction technology, achieving a sound level of only 72 dB, one of the lowest in this machine category. The fully adjustable seat and armrest ensure comfortable reach to all controls. A range of technologies enable easier machine monitoring, while the audio system includes radio, USB and AUX input to keep you entertained during your working day.

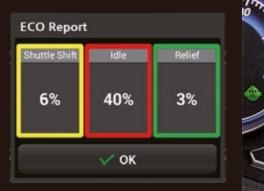

"The seat and armrest can be easily adapted for the most comfortable working position. I'm more relaxed on the job, which means I can work longer without getting tired."

The soft end stop function reduces the hydraulic speed of the cylinder as it reaches the end of its stroke. This lessens the shock load of the stroke for increased operating comfort and better material retention.

The Eco Report feature displays real-time information about machine performance to help operators develop efficient working habits.

All the indicators displaying machine status are centralised in one cluster to enable easy, efficient control.

HYUNDAI HL980A WHEEL LOADER
HL980A WHEEL LOADER

TAILORED TECHNOLOGIES FOR BETTER PRODUCTIVITY

The HL980A's reliable Cummins X12 Stage V engine delivers all the power you need to tackle heavy-duty work in extreme conditions. It is complemented by a range of technologies that increase fuel efficiency while keeping harmful emissions to a minimum.

Precise operating systems help you to get the most out of this mighty machine, including optimised power matching for the ultimate balance of torque and RPM. When operated in Power Smart mode, the engine delivers significant fuel savings as well as smooth performance in high-load work such as digging. Hyundai's proprietary weighing system technology is integrated as standard. Additional control, monitoring and maintenance features help you to maximise performance and productivity every single day, on any worksite.

The HL980A features our **all-in-one**, **switch back type exhaust aftertreatment system** which cuts emissions and operating costs while enhancing reliability and simplifying maintenance.

The highly accurate **automatic/manual cumulative weighing system** helps you to manage production more efficiently in any environment. For maximum precision, weighing error icons and a two-colour weight value indicator are displayed on the monitor.

The new **Smart Power mode** adjusts engine RPM in heavy load work like digging to save fuel without compromising on performance. The technology also achieves an optimal balance between traction and breakout forces.

The **engine shuts down automatically when the machine is at rest** to cut fuel consumption and prevent unnecessary emissions.

at rest to cut fuel consumption and prevent unnecessary emissions. Different operating modes and idling times can be selected according to the work environment, further enhancing efficiency.

The HL980A is equipped with a **five-speed transmission and lockup clutch**. This allows you to work more efficiently while keeping fuel consumption and emissions low.

The **hydraulic locking differential** option prevents tyre slip, making operation more secure while also improving productivity and fuel economy.

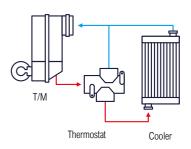

MORE UPTIME FOR A SUSTAINABLE RETURN ON YOUR INVESTMENT

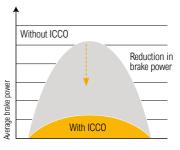

To protect your profits you need to know that the investment you make today will continue to support your business over the long term. That's why we prioritised reliability throughout the development of the HL980A, from design and manufacturing to

quality control. All operating systems have been optimised for endurance and tested rigorously on a range of work sites. The result is a tough, durable workhorse that requires minimal time for repairs and maintenance. "The HL980A is built for the long haul. You can see that every system has been tailored for rock-solid reliability."

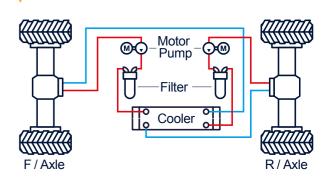

The HL980A is equipped with a **thermostat for transmission cooling**. This feature helps to warm up the fluid quickly and keeps it at the optimal working temperature, protecting components and increasing efficiency.

The **Intelligent Clutch Cut-Off (ICCO)** function minimises loss of power in the torque converter and prevents excessive power use during braking. This reduces heat generation and wear on the brake disc.

The HL980A has **axles with extra load capacity** for better reliability and durability. A separate **axle oil cooling system** is available as an option to prevent overheating during high-load work or tasks requiring frequent braking.

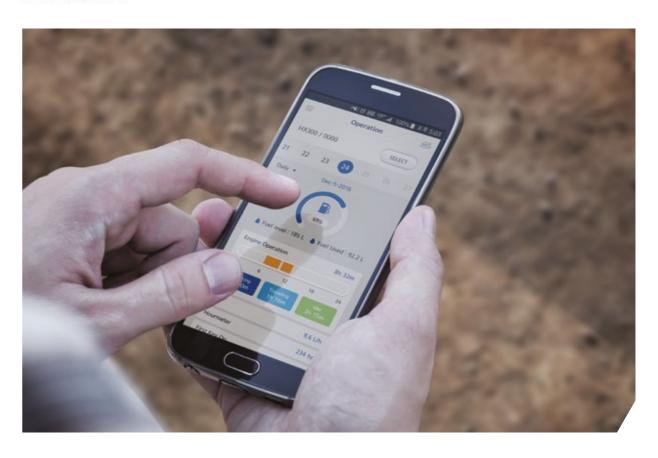

High-grade hoses with outstanding resistance to heat and pressure provide maximum durability, even in rough working conditions.

EASY SERVICING FOR TROUBLE-FREE OWNERSHIP

The peace of mind that comes with quick, low-effort servicing is an important part of what we call the Hyundai Effect. The HL980A has been optimised in numerous ways to make maintenance as convenient as possible. The engine hood opens wide to provide easy access for cleaning and routine tasks. All components and materials have been selected for a long, trouble-free life. Hyundai's Hi-MATE remote management system can be integrated as an option to provide the highest level of service and support. The HL980A also features our new Engine Connected Diagnostics (ECD) system which immediately reports any engine failure to both Hi-MATE and the engine manufacturer to ensure the fastest, easiest resolution.

HiMATE

Hyundai's exclusive Hi-MATE remote management system allows you to monitor your machines from any location via a dedicated website or mobile app, with access to diagnostics and working parameters like total engine hours, actual working hours and fuel consumption. The system makes it easy to evaluate machine productivity and plan servicing and maintenance tasks, as well as any required cost-saving measures. It also offers geofencing to protect your machines against theft and unauthorised usage.

With the optional **auto greasing system**, grease is applied to lubrication points automatically when needed. The correct dosing is ensured and lubricant is applied uniformly, reducing grease consumption and eliminating waste.

The engine hood is fully retractable and can be opened electrically for easy access to the sealed engine room and cooling room. The engine room is designed to prevent the possibility of fire caused by the inflow of foreign materials.

The **air conditioning filter** is easy to replace and is made from a specially selected material for superior performance.

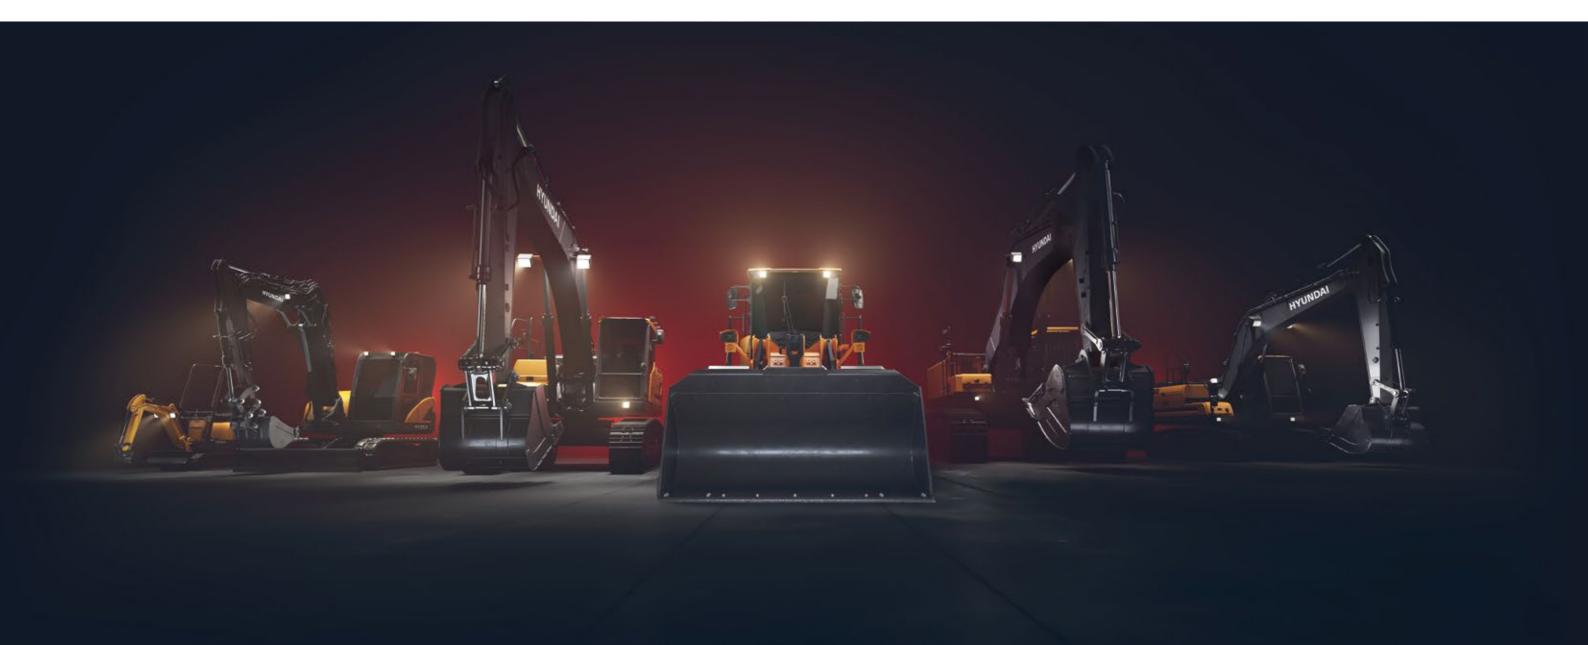

The HL980A has a dependable wide-core and fin air cooler that prevents performance degradation caused by contamination.

FOCUSED TECHNOLOGIES FOR THE RESULTS YOU WANT

Hyundai's A-Series wheel loaders are designed to create better conditions for operators and deliver the ultimate ownership experience. Every detail is carefully fine-tuned to match your needs in the field, including better safety and comfort, higher productivity, maximum uptime and easy servicing. This is all part of the Hyundai Effect.

SOUND

Guaranteed noise level presented below can be differed depending on a range of factors such as operating condition, speed of a cooling fan, types of engine and so forth. Hearing protection shall be necessary if an operator is working in the improperly maintained cabin or exposed to a noisy environment by leaving doors and/or windows open.

With Cooling Fan Speed at Maximum Value:

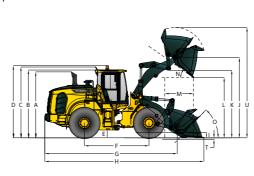

Operator Sound Pressure Level (ISO 6396:2008) 72 dB(A)

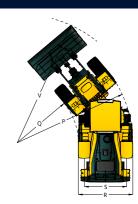

Exterior Sound Power Level (ISO 6395:2008) 108 dB(A)
