DIECI

CONTINUOUS EVOLUTION

Constantly ahead in terms of technological solutions, Dieci continues the evolutionary process of its vehicles, raising the standards with the **New Agriculture Range**.

Reliability, efficiency and comfort have reached unprecedented levels through improved design and instrumentation and the introduction of **innovation and technology**.

New **Stage V** engines on the whole range, **360° suspended cab** and **new interior, more intuitive and functional diagnostics and controls, new chassis and new transmissions**, bring tomorrow's agricultural telehandlers into the field today.

AGRI STAR, among the most agile of Dieci's agricultural vehicles, has been redesigned on a human scale: with the new futuristic cab signed by Giugiaro Design and important interventions on comfort and performance. We have provided farmers with a **top-quality telehandler**.

AGRI STAR

NEW MODELS 37.7 | 40.8 | 38.10

AGILE AND FAST

A high-performance vehicle for a streamlined and efficient production cycle.

Agri Star is **among the most agile** of Dieci's agricultural telehandlers, ideal for work in confined spaces.

The **single-speed hydrostatic transmission** eliminates gear changes, maximizes precision of movement and ensures high towing force even at high speeds.

37.7 AGRI STAR

- ↑ Maximum lifting: 6.8 m
- 📦 Capacity: 3.7 t

40.8 AGRI STAR

- ↑ Maximum lifting: 7.7 m
- 📦 Capacity: 4 t

38.10 AGRI STAR

- ↑ Maximum lifting: 9.6 m
- 📦 Capacity: 3.8 t

SUSPENDED CAB

EXCLUSIVE DIECI

ZERO SHOCK SYSTEM

Cab shock-absorbing system, unique in the telehandler sector, capable of effectively dampening the most annoying oscillations on the roughest terrain.

The hydraulic suspension of the cab effectively reduces oscillations and offers a high driving comfort through 4 supports that absorb impacts and jolts in every direction: lateral, vertical, rear and front.

Front Silent Block with variable absorption

Rear hydraulic shock absorbers

TOTAL COMFORT

MORE VALUE

- Cab by Giugiaro Design
- Refined soft-touch interiors, derived from the automotive industry

MORE LEGROOM

- Best-in-class ergonomics and accessibility
- More space for the operator's legs

MORE COMFORT

- Adjustable steering column and armrest
- Heated seat, 3 suspension system options
- Soundproofing roof, dashboard and mat
- Quick demisting of the windows

MORE VISIBILITY

- Large windows
- Integrated LED worklights on the cab - Headlights on the perimeter, on the boom and on the boom head
- Up to 3 wireless cameras

BETTER CLIMATE CONTROL

- Optimized internal ventilation: 6 adjustable vents
- Rear glass and openable roof
- Electric lateral window
- Quick demisting of the windows
- Air conditioning system with double air filter
- Operator protected against dust and odors

SINGLE CONTROL

- **Boom movements and travel direction** are controlled uniquely by the **electronic joystick**, which integrates the **shuttle control (FNR)**, for fast, intuitive and comfortable control.
- All vehicle control functions are handled by a new **Electronic Control Unit** that monitors the working parameters while optimizing boom movements and speed.
- Precise movement control improves operator comfort and extends component life.
- **Load Sensing – Flow Sharing hydraulic distributor:** these two technologies ensure more simultaneous movements and greater response to controls, for more effective and safe work.
- **Continuous oil function** as standard.

SINGLE-SPEED HYDROSTATIC TRANSMISSION

- **Extremely high performance:** best speed-power ratio maintained in all working conditions
- **Guaranteed traction and speed,** with no need to change gear
- Up to 38 Km/h at progressive speed: **unrivalled fluidity of movement** and **millimetric precision** in small movements
- Electronic accelerator and Inching pedal: **accurate and controlled movement at any speed,** even with the boom at full power
- **Great comfort:** no gear shifting, no torque interruption
- **Creeper function:** adjustable forward speed with the accelerator pedal, constant engine speed and oil flow rate to effectively use equipment such as sweepers or straw spreaders

STAGE V: FAST, ACCURATE AND ECOLOGICAL

Always attentive to environmental issues, Dieci has made a great effort to update the engines of the New Agriculture Range to **Stage V** regulations, implementing the DOC and SCR systems and the DPF filter to limit atmospheric emissions.

All without compromising on **power, reliability and high performance:** this is the spirit of the new engine that drives all the models of the AGRI STAR family. A cutting-edge engine with a fully electronic control, to optimize **power output and efficiency.**

HIGH PERFORMANCE

- Torque up to 550 Nm at only 1500 rpm

ELECTRONIC EVOLUTION

- Complete electronic control: optimized output and efficiency

LONG AUTONOMY

- Top-of-range tank: 175 liters of fuel

MINIMUM EMISSIONS

- **Stage V** system
- DOC+SCR catalysts
- DPF
- 19 liter Urea tank

ADVANCED TECHNOLOGY

AUTOMATIC COUPLING SYSTEM

- Tools recognition without manual operations: easier, maximum safety
- Immediate vehicle setting for different uses

ELECTRONIC SUSPENSION MANAGEMENT

Electronic control of boom suspension according to speed, for top efficiency performance in total safety.

DTS

The **Dieci Telematic System** is the innovative telematic system that allows to interact with the vehicle remotely to geolocate it, monitor its operating parameters, measure its performance and limit its use.

By installing a high-tech control unit, the customer and the manufacturer can **connect to the vehicle in real time** from a computer or any mobile device and, through the **GSM and GPS networks**, discover where, if and how the machine is working, and **detect operating anomalies**, if any.

The operating data, collected via cloud, enable full **monitoring and diagnostics**. The support team and user can analyze the parameters directly, identify shortfalls in performance, and improve functionality or identify any maintenance operations required, thereby **optimizing costs** and ensuring **the vehicle and fleet are maintained in peak efficiency**.

The machine and its operators benefit from **active protection against theft and accident**: a notification is sent immediately if the vehicle leaves the predefined area. By setting a safe operating track, the operator is immediately alerted to any risk of impact or anomaly.

DIECI SERVICE

General headquarters in Emilia Romagna - over 135,000 square meters and about 400 people employed - and 3 branches in Germany, United Kingdom, France: Dieci is present in over 70 Countries with **an extensive network of over 400 dealers** and authorized service centers.

Dieci Service, our global technical assistance service, is developed on this basis: our customers are assisted directly by specialized technicians and every request is satisfied in a very short time. Dieci Service, **within a few hours, can provide interventions and spare parts all over the world.**
